major components:

Activity Chamber
Controlling section
Monitoring section

@ section or major component is itself a collection of smaller parts/elements which collectively cause the component to function as a unit & allow to be coupled/connected with the other units particularly the Activity Chamber to constitute the item of interest as an entire Gestalt entity.

As A/S
~~Controlling~~ section:
phases as if there manipulation of some sort of physical force or power to direct, control, divert, manage, retard, accelerate, "impede", suspend, halt, interrupt, release, allow to proceed, govern

Activity Chamber

curved, rounded, spaces inside thick walled
 heavy "cast" metal; bolted moving inside; machines
